Industrial Rubber, Inc. Circulating Swages

Industrial Rubber, Inc.'s Swages utilize a unique weight-saving dished top to create a swage that is lighter and easier to handle, yet robust enough to withstand high pressure circulating. The integral 1502 union is easy to maintain, and very inexpensive to replace should the need arise. Swages are available in any size or style of casing thread – just let us know what you need!

Features of the IRI Swage Include:

- Dished Top Design Reduces Weight by up to 33%
- Integral 1502 Union Easy to Maintain or Replace
- One-piece Design allows for High-Pressure Use
- Available for any size casing, with any style threads

IRI Swages are available for various working pressures under the following Part Numbers:

Size	Swage P/N	Working Pressure (PSI)
2 3/8"	325-0023	10000
2 7/8"	325-0027	10000
3 1/2"	325-0034	10000
4 1/2"	325-0044	10000
5"	325-0050	10000
5 1/2"	325-0054	10000
6 5/8"	325-0065	10000
7"	325-0070	10000
7 5/8"	325-0075	7500
7 3/4"	325-0076	7500
8 5/8"	325-0085	7500
9 5/8"	325-0095	7500
10 3/4"	325-0106	5000
11 3/4"	325-0116	5000
13 3/8"	325-0133	5000
16"	325-0160	3000
18 5/8"	325-0185	3000
20"	325-0200	3000

* Other sizes and working pressures are available upon request.
