## *TEST TABLE*

Industrial Rubber, Inc.'s Test Tables are designed and built to hold any combination of up to of test plugs. IRI test plugs are available in ACME thread configurations for easy connector Quick Coupling wing halves, as well as in standard 8RD or BTC casing threads. The test pl quickly and easily changed out by means of a six-bolt lug pattern. IRI Test Tables come l assembled with 1/2" XH NPT plumbing for easy drainage and pressure relief after the comp testing. Test table and test plugs are sold separately.
